SAFETY PRECAUTIONS

CAUTION
RISK OF ELECTRIC SHOCK
DO NOT OPEN

CAUTION:
TO REDUCE THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE COVER (OR BACK). NO USER-SERVICEABLE PARTS INSIDE. REFER SERVICING TO QUALIFIED SERVICE PERSONNEL.

The lightning flash with arrowhead symbol, within an equilateral triangle, is intended to alert the user to the presence of uninsulated “dangerous voltage” within the product’s enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.

WARNING:
TO REDUCE THE RISK OF FIRE OR ELECTRIC SHOCK, DO NOT EXPOSE THIS APPLIANCE TO RAIN OR MOISTURE.

LASER SAFETY
CLASS II LASER PRODUCT

CAUTION:
VISIBLE AND INVISIBLE LASER RADIATION WHEN OPEN.
DO NOT STARE INTO BEAM.
LOCATION: INSIDE, NEAR THE DVD DRIVE MECHANISM.

CAUTION:
USE OF CONTROLS OR ADJUSTMENTS OR PERFORMANCE OF PROCEDURES OTHER THAN THOSE SPECIFIED HEREIN MAY RESULT
IN HAZARDOUS RADIATION EXPOSURE.
THIS PRODUCT SHOULD NOT BE ADJUSTED OR REPAIRED BY ANYONE EXCEPT PROPERLY QUALIFIED SERVICE PERSONNEL.

FCC INFORMATION (For US customers)

- 1. PRODUCT**
This product complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this product may not cause harmful interference, and (2) this product must accept any interference received, including interference that may cause undesired operation.
- 2. IMPORTANT NOTICE: DO NOT MODIFY THIS PRODUCT**
This product, when installed as indicated in the instructions contained in this manual, meets FCC requirements. Modification not expressly approved by DENON may void your authority, granted by the FCC, to use the product.
- 3. NOTE**
This product has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This product generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this product does cause harmful interference to radio or television reception, which can be determined by turning the product OFF and ON, the user is encouraged to try to correct the interference by one or more of the following measures:

 - Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the product into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the local retailer authorized to distribute this type of product or an experienced radio/TV technician for help.

This Class B digital apparatus complies with Canadian ICES-003.
Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

- Copyrights / Droits d’auteur / Derechos de Autor**
- It is prohibited by law to reproduce, broadcast, rent or play discs in public without the consent of the copyright holder.
 - La reproduction, la diffusion, la location, le prêt ou la lecture publique de ces disques sont interdits sans le consentement du détenteur des droits d’auteur.
 - De acuerdo con las leyes está prohibido reproducir, emitir, alquilar o interpretar discos en público sin la autorización del propietario de los derechos de autor.

SAFETY INSTRUCTIONS

1. Read Instructions – All the safety and operating instructions should be read before the product is operated.
2. Retain Instructions – The safety and operating instructions should be retained for future reference.
3. Heed Warnings – All warnings on the product and in the operating instructions should be adhered to.
4. Follow Instructions – All operating and use instructions should be followed.
5. Cleaning – Unplug this product from the wall outlet before cleaning. Do not use liquid cleaners or aerosol cleaners.
6. Attachments – Do not use attachments not recommended by the product manufacturer as they may cause hazards.
7. Water and Moisture – Do not use this product near water – for example, near a bath tub, wash bowl, kitchen sink, or laundry tub; in a wet basement; or near a swimming pool; and the like.
8. Accessories – Do not place this product on an unstable cart, stand, tripod, bracket, or table. The product may fall, causing serious injury to a child or adult, and serious damage to the product. Use only with a cart, stand, tripod, bracket, or table recommended by the manufacturer, or sold with the product. Any mounting of the product should follow the manufacturer's instructions, and should use a mounting accessory recommended by the manufacturer.
9. A product and cart combination should be moved with care. Quick stops, excessive force, and uneven surfaces may cause the product and cart combination to overturn.
10. Ventilation – Slots and openings in the cabinet are provided for ventilation and to ensure reliable operation of the product and to protect it from overheating, and these openings must not be blocked or covered. The openings should never be blocked by placing the product on a bed, sofa, rug, or other similar surface. This product should not be placed in a built-in installation such as a bookcase or rack unless proper ventilation is provided or the manufacturer's instructions have been adhered to.
11. Power Sources – This product should be operated only from the type of power source indicated on the marking label. If you are not sure of the type of power supply to your home, consult your product dealer or local power company. For products intended to operate from battery power, or other sources, refer to the operating instructions.
12. Grounding or Polarization – This product may be equipped with a polarized alternating-current line plug (a plug having one blade wider than the other). This plug will fit into the power outlet only one way. This is a safety feature. If you are unable to insert the plug fully into the outlet, try reversing the plug. If the plug should still fail to fit, contact your electrician to replace your obsolete outlet. Do not defeat the safety purpose of the polarized plug.

13. Power-Cord Protection – Power-supply cords should be routed so that they are not likely to be walked on or pinched by items placed upon or against them, paying particular attention to cords at plugs, convenience receptacles, and the point where they exit from the product.
14. Outdoor Antenna Grounding – If an outside antenna or cable system is connected to the product, be sure the antenna or cable system is grounded so as to provide some protection against voltage surges and built-up static charges. Article 810 of the National Electrical Code, ANSI/NFPA 70, provides information with regard to proper grounding of the mast and supporting structure, grounding of the lead-in wire to an antenna discharge unit, size of grounding conductors, location of antenna-discharge unit, connection to grounding electrodes, and requirements for the grounding electrode. See Figure A.
15. Lightning – For added protection for this product during a lightning storm, or when it is left unattended and unused for long periods of time, unplug it from the wall outlet and disconnect the antenna or cable system. This will prevent damage to the product due to lightning and power-line surges.
16. Power Lines – An outside antenna system should not be located in the vicinity of overhead power lines or other electric light or power circuits, or where it can fall into such power lines or circuits. When installing an outside antenna system, extreme care should be taken to keep from touching such power lines or circuits as contact with them might be fatal.
17. Overloading – Do not overload wall outlets, extension cords, or integral convenience receptacles as this can result in a risk of fire or electric shock.
18. Object and Liquid Entry – Never push objects of any kind into this product through openings as they may touch dangerous voltage points or short-out parts that could result in a fire or electric shock. Never spill liquid of any kind on the product.
19. Servicing – Do not attempt to service this product yourself as opening or removing covers may expose you to dangerous voltage or other hazards. Refer all servicing to qualified service personnel.
20. Damage Requiring Service – Unplug this product from the wall outlet and refer servicing to qualified service personnel under the following conditions:
 - a) When the power-supply cord or plug is damaged,
 - b) If liquid has been spilled, or objects have fallen into the product,
 - c) If the product has been exposed to rain or water,
 - d) If the product does not operate normally by following the operating instructions. Adjust only those controls that are covered by the operating instructions as an improper adjustment of other controls may result in damage and will often require extensive work by a qualified technician to restore the product to its normal operation,
 - e) If the product has been dropped or damaged in any way, and
 - f) When the product exhibits a distinct change in performance – this indicates a need for service.
21. Replacement Parts – When replacement parts are required, be sure the service technician has used replacement parts specified by the manufacturer or have the same characteristics as the original part. Unauthorized substitutions may result in fire, electric shock, or other hazards.
22. Safety Check – Upon completion of any service or repairs to this product, ask the service technician to perform safety checks to determine that the product is in proper operating condition.
23. Wall or Ceiling Mounting – The product should be mounted to a wall or ceiling only as recommended by the manufacturer.
24. Heat – The product should be situated away from heat sources such as radiators, heat registers, stoves, or other products (including amplifiers) that produce heat.

NOTE ON USE / OBSERVATIONS RELATIVES A L'UTILISATION

 <ul style="list-style-type: none">• Avoid high temperatures. Allow for sufficient heat dispersion when installed in a rack.• Eviter des températures élevées. Tenir compte d'une dispersion de chaleur suffisante lors de l'installation sur une étagère.• Evite altas temperaturas. Permite la suficiente dispersión del calor cuando está instalado en la consola.	 <ul style="list-style-type: none">• Keep the unit free from moisture, water, and dust.• Protéger l'appareil contre l'humidité, l'eau et la poussière.• Mantenga el equipo libre de humedad, agua y polvo.	 <ul style="list-style-type: none">• Do not let foreign objects into the unit.• Ne pas laisser des objets étrangers dans l'appareil.• No deje objetos extraños dentro del equipo.
	 <ul style="list-style-type: none">• Unplug the power cord when not using the unit for long periods of time.• Débrancher le cordon d'alimentation lorsque l'appareil n'est pas utilisé pendant de longues périodes.• Desconecte el cordón de energía cuando no utilice el equipo por mucho tiempo.	 <ul style="list-style-type: none">• Do not let insecticides, benzene, and thinner come in contact with the unit.• Ne pas mettre en contact des insecticides, du benzène et un diluant avec l'appareil.• No permita el contacto de insecticidas, gasolina y diluyentes con el equipo.
 <ul style="list-style-type: none">• Handle the power cord carefully. Hold the plug when unplugging the cord.• Manipuler le cordon d'alimentation avec précaution. Tenir la prise lors du débranchement du cordon.• Maneje el cordón de energía con cuidado. Sostenga el enchufe cuando desconecte el cordón de energía.	 <p>* (For apparatuses with ventilation holes)</p> <ul style="list-style-type: none">• Do not obstruct the ventilation holes.• Ne pas obstruer les trous d'aération.• No obstruya los orificios de ventilación.	 <ul style="list-style-type: none">• Never disassemble or modify the unit in any way.• Ne jamais démonter ou modifier l'appareil d'une manière ou d'une autre.• Nunca desarme o modifique el equipo de ninguna manera.

Getting Started

Thank you for purchasing this DENON product. To ensure proper operation, please read these owner's manual carefully before using the product.

After reading them, be sure to keep them for future reference.

Accessories

Check that the following parts are supplied with the product.

① Remote control (RC-1073)	1
② R6P/AA batteries	2
③ System cable (D-SUB25P) (Cord length: Approx. 10 ft/3 m)	1
④ Speaker cable (Cord length: Approx. 16 ft/5 m)	2
⑤ Video cable (Cord length: Approx. 5 ft/1.5 m)	1
⑥ AM loop antenna	1
⑦ FM indoor antenna	1
⑧ Speaker stand	2
⑨ Screw	4
⑩ Hex wrench	1
⑪ Anti slip pads	4
⑫ Owner's manual (with Quick setup sheet)	1
⑬ Service station list	1
⑭ Warranty (for North America model only)	1

Cautions on Handling

• Before turning the power switch on

Check once again that all connections are correct and that there are no problems with the connection cables.

• Power is supplied to some of the circuitry even when the unit is set to the standby mode. When traveling or leaving home for long periods of time, be sure to unplug the power cord from the power outlet.

• Sufficiently ventilate the place of installation

If the unit is left in a room full of the smoke from cigarettes, etc., for long periods of time, the surface of the optical pickup could get dirty, in which case it will not be able to read the signals properly.

• About condensation

If there is a major difference in temperature between the inside of the unit and the surroundings, condensation (dew) may form on the operating parts inside the unit, causing the unit not to operate properly.

If this happens, let the unit sit for an hour or two with the power turned off and wait until there is little difference in temperature before using the unit.

• Cautions on using mobile phones

Using a mobile phone near this unit may result in noise. If so, move the mobile phone away from this unit when it is in use.

• Moving the unit

Turn off the power and unplug the power cord from the power outlet.

Next, disconnect the connection cables to other system units before moving the unit.

• Note that the illustrations in these instructions may differ from the actual unit for explanation purposes.

System Configuration

Cautions on Installation

Note:

For proper heat dispersal, do not install this unit in a confined space, such as a bookcase or similar enclosure.

© The quality of the sound produced from the speaker is affected by the size and type of the room, as well as by the method of installation. Consider the points listed below before installing the speaker.

- Placing speakers on the same stand or shelf as the record player could result in howling.
- If there is a wall, glass door, etc., behind or to the sides of the speakers, resonance and reflections can be prevented by using a thick curtain, etc.
- The speakers are of the shielded type. With some TVs, however, placing the speakers near the TV could cause color blotching on the TV's picture. If this happens, turn the TV's power off, move it away, wait 15 to 30 minutes, then turn the TV's power back on. If the color blotching persists, move the speakers further away.
- Mount on a wall sufficiently sturdy to bear the weight of the speaker. Note that DENON will except no responsibility whatsoever for damages or accidents caused by the speaker falling.
- To ensure safety, have a specialist install the speakers on the wall.
- Be sure to fasten the speaker connection cables to the wall, etc., so that you do not get your feet or hands caught in them, causing the set to fall.
- Place the subwoofer on a flat floor to prevent accidents due to the subwoofer tipping over.
- Do not place a record player, CD player or other such device on top of the subwoofer.
- Do not set the subwoofer with the baffle surface against the floor. Doing so will prevent you from achieving satisfactory sound effects.

CAUTION

- Be sure to fasten the speaker cords to a wall, etc., to prevent people from tripping over them or otherwise pulling on them accidentally, causing the speaker systems to fall.
- Be sure to check for safety after installing the speaker systems. Afterwards, perform safety inspections at regular intervals to be sure there is no danger that the speaker systems will fall. DENON will accept no responsibility for damages or accidents caused by inappropriate choice of the place of installation or improper installation procedures.

Other Cautions

- Switching the input function when input terminals are not connected.
A clicking noise may be produced if the input function is switched when nothing is connected to the input terminals. If this happens, either turn down the VOLUME control knob or connect components to the input terminals.
- When watching TV broadcasts with the S-102's power turned on, depending on the conditions of the TV broadcast's signals, striped patterns may appear on the picture. This is not a malfunction of the S-102 or the TV. Turn the S-102's power off when watching TV.
- Note that if a magnet or a piece of furniture or equipment using magnets is placed nearby, interaction with the S-102 could result in color blotching on the TV.

NOTE

- This product uses a semiconductor laser. To ensure stable operation, it is recommended to use the product indoors at a temperature of 5 °C (41 °F) ~ 35 °C (95 °F).

Discs

Discs usable on the S-102

Usable discs	Mark (logo)	Recorded Signals	Disc size
DVD video		Digital audio + digital video (MPEG2)	12cm
DVD-R/DVD+R (*1) (*2)	 		
DVD-RW/DVD+RW (*1) (*3)	 		
CD		Digital audio MP3 Digital picture (JPEG)	12cm / 8cm
CD-R (*4)			
CD-RW (*4)			
Picture CD		Digital picture (JPEG)	12cm
Fujicolor CD		Digital picture (JPEG)	12cm
WMA		Digital audio	12cm

*1 : DVD ± R/DVD ±RW discs recorded on a DVD recorder in the video mode and finalized can be played on the S-102.

Note, however, that in some cases the discs may not play properly, depending on their recording conditions.

Discs that have not been finalized or DVD ± R/DVD ±RW discs recorded in the VR mode or in CPRM cannot be played.

*2 : DVD+R DL (Dual Layer) cannot be played.

*3 : DVD-RW discs recorded in the VR mode and finalized can be played.

*4 : According to recording quality, some CD-R/RW cannot be played.

CD-R/CD-RW discs recorded and finalized can be played on the S-102.

The following types of discs cannot be played on the S-102:

- DVD videos with region numbers other than "1" or "ALL"
- DVD-ROM/RAM (For DVD ROM discs)
- CD-ROMs (Only JPEG / MP3 / WMA)
- VCD / VSDs / CVD / SVCD
- CDV (only the audio portion can be played)
- CD-Gs (only the audio portion can be played)
- Photo CDs (NEVER play such discs on the S-102)

NOTE

DVD players and DVD video discs have region numbers (numbers assigned for different regions of the world).

The numbers must match or the discs cannot be played.

The Region number for this DVD video player is **1**.

NOTE

• Recordings you have made should only be used for your personal enjoyment, and as per copyright laws may not be used in other ways without permission of the copyright holder.

• Do not play CD-R/CD-RW discs containing files in formats other than music CD (CD-DA format), MP3, WMA, JPEG. Depending on the type of file, the set may malfunction or be damaged.

Holding Discs

Do not touch the signal surface.

Loading Discs

- Set the disc with the labeled side facing up.
- Make sure the disc tray is fully open when inserting the disc.
- Place the discs flatly, 12 cm discs in the outer tray guide (Figure 1), 8 cm discs in the inner tray guide (Figure 2).

Figure 1

Figure 2

- Place 8 cm discs in the inner tray guide without using an adapter.

- "STOP" is displayed if a disc that cannot be played is loaded.
- "0h00m00s" is displayed if the disc is loaded upside-down or if no disc is loaded.

NOTE

Do not push the disc tray in by hand when the power is turned off. Doing so could damage the set.

※ Playing discs with special shapes could damage the set. Do not use such discs.

Cautions on Loading Discs

- Only load one disc at a time. Loading two or more discs can damage the unit or scratch the discs.
- Do not use cracked or warped discs or discs that have been repaired with adhesive, etc.
- Do not use discs on which the sticky part of cellophane tape or labels is exposed or on which there are traces of where labels have been removed. Such discs can get caught inside the player and damage it.

Cautions on Handling

- Do not get fingerprints, oil or dirt on discs.
- Take special care not to scratch discs when removing them from their cases.
- Do not bend or heat discs.
- Do not enlarge the hole at the center.
- Do not write on the labeled (printed) surface with ball-point pens, pencils, etc., or stick new labels on discs.
- Water droplets may form on discs if they are moved suddenly from a cold place (outdoors for example) to a warm place, but do not try to dry them off using a hairdryer, etc.

Cautions on Storing Discs

- Be sure to remove discs after using them.
- Be sure to store discs in their cases to protect them from dust, scratches, warping, etc.
- Do not store discs in the following places:
 1. Places exposed to direct sunlight for long periods of time
 2. Dusty or humid places
 3. Places exposed to heat from heating appliances, etc.

Cleaning Discs

- If there are fingerprints or dirt on discs, wipe them off before using the disc. Fingerprints and dirt can impair sound quality and cause interruptions in playback.
- Use a commercially available disc cleaning set or a soft cloth to clean discs.

Gently wipe the disc from the inside towards the outside.

Do not wipe with a circular motion.

NOTE

Do not use record spray, antistatic agents, or benzene, thinner or other solvents.

About the Remote Control Unit

Inserting the Batteries

- ① Slide the rear lid in the direction of the arrow and remove it.
- ② Load the two batteries properly as indicated by the marks in the battery compartment.

- ③ Put the rear cover back on.

NOTE

- Replace the batteries with new ones if the set does not operate even when the remote control unit is operated close to the unit.
- The supplied batteries are only for verifying operation.
- When inserting the batteries, be sure to do so in the proper direction, following the “+” and “-” marks in the battery compartment.
- To prevent damage or leakage of battery fluid:
 - Do not use a new battery together with an old one.
 - Do not use two different types of batteries.
 - Do not attempt to charge dry batteries.
 - Do not short-circuit, disassemble, heat or dispose of batteries in flames.
- If the battery fluid should leak, carefully wipe the fluid off the inside of the battery compartment and insert new batteries.
- Remove the batteries from the remote control unit if it will not be in use for long periods.
- When replacing the batteries, have the new batteries ready and insert them as quickly as possible.

Operating Range of the Remote Control Unit

Point the remote control unit at the remote sensor when operating it.

NOTE

The set may function improperly or the remote control unit may not operate if the remote control sensor is exposed to direct sunlight, strong artificial light from an inverter type fluorescent lamp or infrared light.

Connections

Connections for all compatible audio and video signal formats are described in these operating instructions. Please select the types of connections suited for the equipment you are connecting. With some types of connections, certain settings must be made on the S-102. For details, refer to the instructions for the respective connection items below.

NOTE

- Do not plug in the power supply cord until all connections have been completed.
- When making connections, also refer to the owner's manual of the other components.
- Be sure to connect the left and right channels properly (left with left, right with right).
- Do not bundle power supply cords together with connection cables. Doing so can result in humming or noise.

To change the speaker cable

Refer to the procedure below if you want to switch to a different speaker cable. This example describes how to mount the "+" side cable to the connector. Mount the "-" side cable in the same way.

1 Insert the included hexagonal wrench into the hole at the top of the connector's "+" side. (Arrow A)

2 Turn the hexagonal wrench in the direction of arrow B to loosen the cable.

3 Pull out the old cable. (Arrow C)

※ Be careful not to leave any broken wire parts inside the connector.

4 Peel off the cable's sheath and insert the new cable. (Arrow D)

5 Turn the hexagonal wrench in the direction of Arrow E and tighten securely so that the cable cannot be pulled out.

※ If the polarities are inverted, the phase may be off and the bass sound may be missing, resulting in an unnatural sound.

Preparations

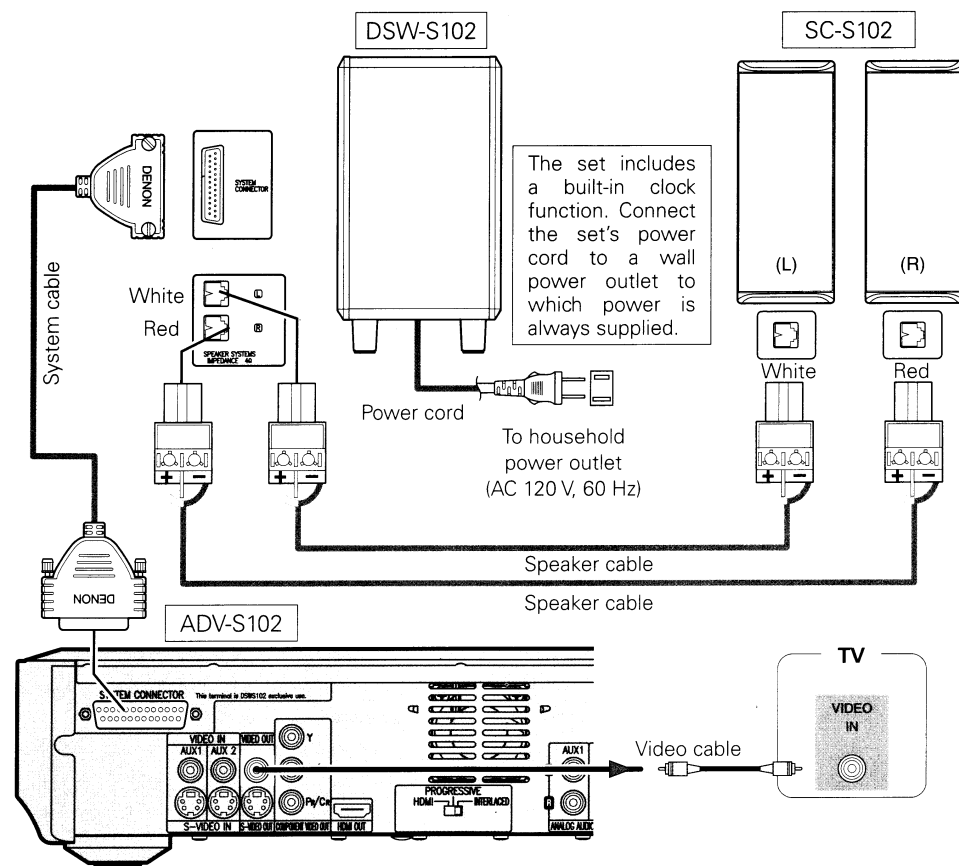

Cables Used for Connections

Select the cables according to the equipment being connected.

Audio cables		Video cables	
Optical digital connections  Optical transmission cable		Component video connections (Green)   (Y) (Blue)   (PB/CB) (Red)   (PR/CR) Component video cable	
Analog connections (stereo) (White)   (Red)   Stereo pin-plug cable		S-Video connections  S-Video cable	
		Video connections (Yellow)   75Ω / ohms pin-plug video cable	
Signal direction		Audio and video cables	
Audio signal:  Input Output		HDMI connections  19-pin HDMI cable	
Video signal:  Input Output			

Connecting the System

A home theater can be achieved easily using the included cables to connect the DVD surround receiver (ADV-S102), subwoofer (DSW-S102), speakers (SC-S102) and your TV set.

NOTE

- Connect the set's video output directly to the TV. Do not connect it via a VCR (video cassette recorder). Some discs contain copy prohibit signals, and the picture could be disturbed if such discs are played via a VCR.
- Insert the plugs securely. Incomplete connections will result in the generation of noise.
- Do not unplug the power cord while the set is operating.
- When connecting system cables and speaker cables, first lay them out sideways. When laying them out take care not to damage them.

Protector circuit

The protection circuit will be activated in the following cases:

- When the speaker output is short-circuited
- When the temperature around the set is extremely high
- When the set is used for long periods of time with a high output and the internal temperature rises

When the protection circuit is activated, the speaker output is cut off and the power supply indicator flashes. Should this occur, please follow these steps: be sure to switch off the power of this unit, check whether there are any faults with the wiring of the speaker cables or input cables, and wait for the unit to cool down if it is very hot. Improve the ventilation condition around the unit and switch the power back on.

If the protection circuit is activated again even though there are no problems with the wiring or the ventilation around the unit, switch off the power and contact a DENON service center.

Note on speaker impedance

If speakers with an impedance below the specified impedance (4 Ω /ohms) are used (for example, speakers with an impedance of 3 Ω /ohms) with the volume turned up high for long periods of time, the temperature may rise, activating the protective circuit.

When the protection circuit is activated, the output to the speakers is cut off and the power indicator blinks. If this happens, unplug the power supply cord, wait for the set to cool off and improve ventilation around the unit. Also check the wiring of the input cables and the speaker cables. After doing this, plug the power supply cord back in and turn the unit's power back on.

If the protection circuit is activated again even though there are no problems with the wiring or the ventilation around the unit, switch off the power and contact a DENON service center.

Mounting the speaker stand and bracket

- ※ Be sure to tighten the screws completely.
- ※ Also be careful when installing.

Stick the cushion pad here. (Included)

- ※ When placing the speaker system (SC-S102) on a stand, etc., stick the included cushion pads at the two corners of the bottom surface. (Refer to the illustration above.)

Connecting the Monitor

Select and connect using one of the video cables below according to the TV's terminals. The terminals provide playback with different picture qualities, in the following order (from highest to lowest):
①HDMI terminals, ②Component video terminals, ③S-Video terminals, ④Video terminals

Switching the video output format

Set the **HDMI/PROGRESSIVE/INTERLACED** switch on the rear panel according to the video output format of the TV connected to the set.

※ Be sure to turn the power off before operating the switch.

- The component video terminals may be indicated differently on your TV. For details, see the TV's operating instructions.
- When PROGRESSIVE is set, picture cannot be output from VIDEO OUT/S-VIDEO OUT.

Connecting Equipment with HDMI Connectors

Digital video and digital audio can both be connected using a single HDMI cable.

NOTE

- When playing multichannel sources, the audio output is downmixed to two channels for output. In addition, the sampling frequency is lowered to 48 kHz.
- Video signals are not output properly when using devices that are not HDCP-compatible.
- Use a cable on which the HDMI logo is indicated (a certified HDMI product) for connection to the HDMI connector. Normal playback may not be possible when using a cable other than one on which the HDMI logo is indicated (a non-HDMI-certified product).
- The audio signals output from the HDMI connector (sampling frequency, bit rate, etc.) may be restricted by the connected device.

If the connected TV is only compatible with DVI-D terminals, use an HDMI/DVI conversion cable.

When connecting with an HDMI/DVI converter cable (adapter)

- HDMI video signals are theoretically compatible with the DVI format.
When connecting to a TV, etc., equipped with a DVI-D terminal, connection is possible using an HDMI/DVI converter cable, but depending on the combination of components in some cases the video signals will not be output.
- When connecting using an HDMI/DVI converter adapter, the video signals may not be output properly due to poor connections with the connected cable, etc.

Condition of signals from the S-102's HDMI output terminal	HDMI-compatible monitor	DVI-D-compatible monitor (HDCP compatible)	DVI-D-compatible monitor (HDCP non compatible)
	Both video and audio output	Only video output *	Neither video nor audio output

*: Only output when video signals are of RGB format.

Copyright protection system

In order to play the digital video and audio signals of a DVD Video disc using HDMI connections, both the connected DVD player and TV must be equipped for a copyright protection system called "HDCP" (High-bandwidth Digital Content Protection).

HDCP is a copy protection technology consisting of data encoding and mutual identification of the devices. The S-102 is HDCP-compatible. Check the operating instructions of your TV to see if they are compatible.

Setting the HDMI output resolution

Set the resolution of the video signals output from the HDMI output terminal to a resolution with which the connected devices are compatible. Press **HDMI** on the remote control unit to select.

→ 480p/576p → 720p → 1080i → 1080p → AUTO →

Connecting the Playback Components

Carefully check the left (L) and right (R) channels and the inputs and outputs, and be sure to interconnect correctly.

Control Dock for iPod

Use a DENON Control Dock for iPod (ASD-1R, sold separately) to connect the iPod to the S-102.

- When using the Control Dock for iPod, certain settings must be made on the Control Dock for iPod. For details, refer to the Control Dock for iPod's operating instructions.
- When using an iPod, refer to "iPod® Playback" (page 29).

TV Tuner

Connect the cables to be used.

Satellite Receiver

Connect the cables to be used.

Connect to "AUX1" when using the OPTICAL terminal for the digital audio input.

Connections to Other Devices

Antenna Terminals

An F-type FM antenna cable plug can be connected directly.

AM/FM

Direction of broadcasting station

Note to CATV system installer:

This reminder is provided to call the CATV system installer's attention to Article 820-40 of the NEC which provides guidelines for proper grounding and, in particular, specifies that the cable ground shall be connected to the grounding system of the building, as close to the point of cable entry as practical.

AM loop antenna assembly

- ① Remove the vinyl tie and take out the connection line.
 - ② Connect to the AM antenna terminals.
 - ③ Bend in the reverse direction.
 - ④ Mount
 - a. With the antenna on top any stable surface.
 - b. With the antenna attached to a wall.
- Installation hole Mount on wall, etc.

Connection of AM antennas

1. Push the lever.
2. Insert the conductor.
3. Return the lever.

NOTE

- Do not connect two FM antennas simultaneously.
- Even if an external AM antenna is used, do not disconnect the AM loop antenna.
- Make sure the AM loop antenna lead terminals do not touch metal parts of the panel.

Once Connections are Completed

Troubleshooting

Menu Operations

With the S-102, settings and operations for most functions can be performed by operating while looking at the menus displayed on the monitor screen.

Operations

The same operation is possible on the remote control unit.

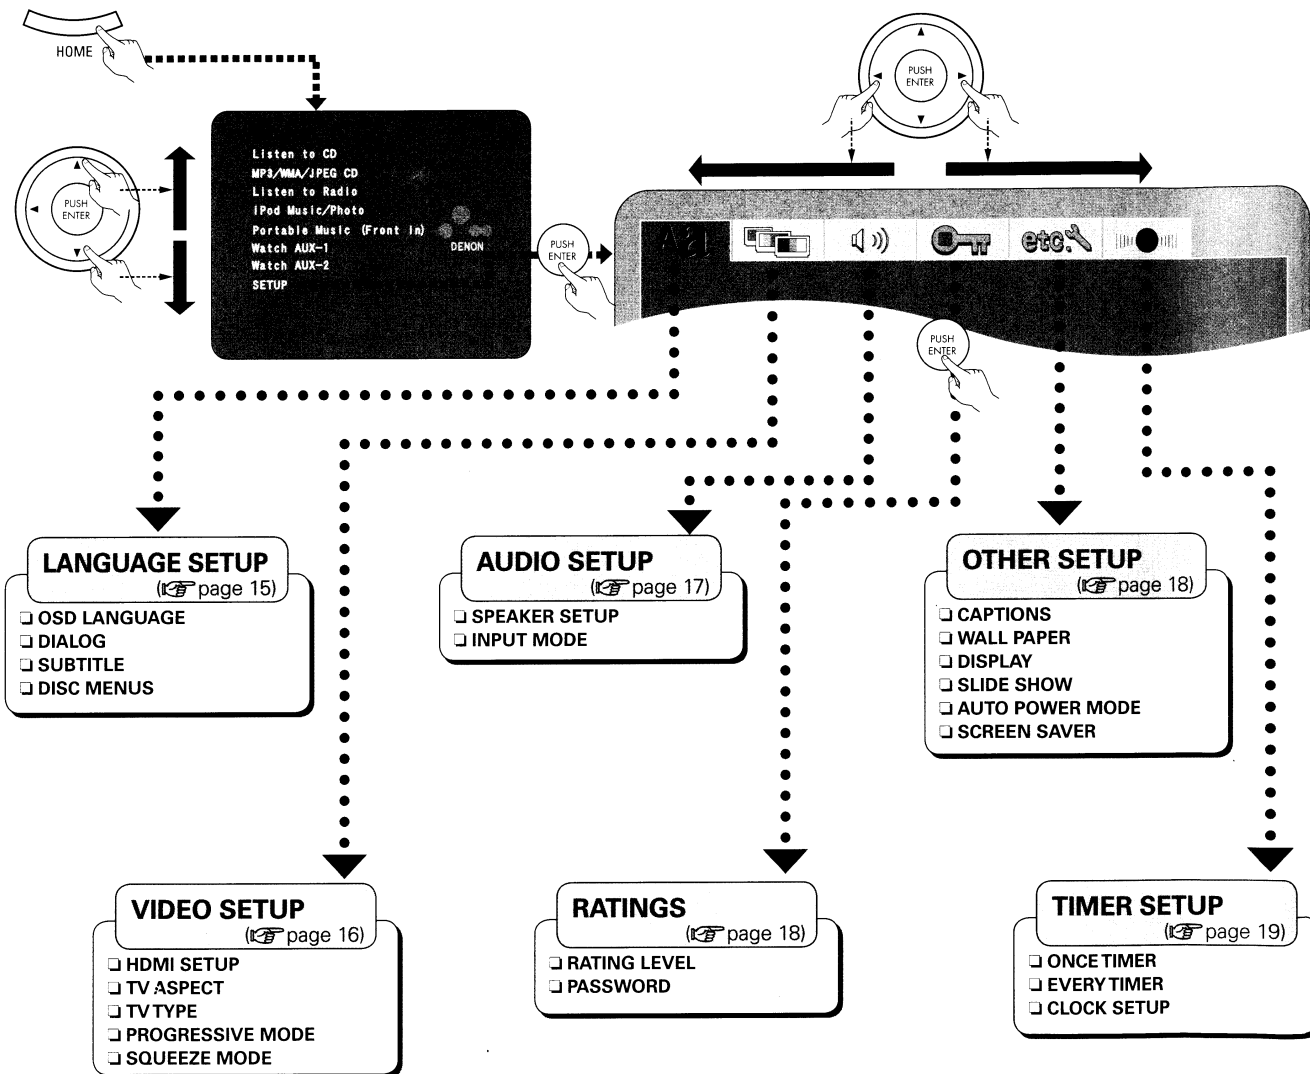

- 1 Press the HOME button.**
The menu is displayed.
- 2 Press the $\Delta \nabla$ button to select the item you want to set, then press the ENTER button.**
- 3 Press the $\triangleleft \triangleright$ button again to select the item you want to set, then press the ENTER button.**
- 4 To change the setting:**
Press the $\Delta \nabla$ button to select the item you want to change, then press the $\triangleleft \triangleright$ button to change the setting.
* To return to the previous item, press the RETURN button.
"CHANNEL LEVEL", "DISTANCE" and "TIMER SETUP" only.
- 5 Press the ENTER button to enter the setting.**
- 6 Press the HOME button to finish.**

Example of Display of Default Values

In lists of selectable items or adjustable ranges, the item surrounded by a border is the default value.

VIDEO SETUP

Make video output settings to match connected monitor.

● Menu screen ●

1 HDMI SETUP

Make settings for HDMI video/audio output.

HDMI SELECT

Make settings for output color space.

[Selectable items]

Y Cb Cr : Output using YCbCr format.

RGB : Output using RGB format.

HDMI AUTO FORMAT

Make settings for resolution of HDMI video output signal.

[Selectable items]

PANEL RES. : Detect monitor panel resolution and automatically set output resolution.

MAX RES. : Detect monitor max. resolution and automatically set output resolution.

HDMI BLACK LEVEL

Make settings for RGB output range.

[Selectable items]

NORMAL : Use video range from 16 (black) to 235 (white).

ENHANCED : Video range from 0 (black) to 255 (white) Use this setting to avoid black washout.

HDMI AUDIO OUT

Select whether to output audio via HDMI. (DVD only)

[Selectable items]

OFF : Enable audio output via HDMI.

ON : Disable audio output via HDMI.

2 TV ASPECT

Select monitor aspect ratio.

[Selectable items]

4:3PS : 4:3 monitor is used (For pan & scan sources).

4:3LB : 4:3 monitor is used 16:9 material is shown letterboxed.

WIDE(16:9) : 16:9 monitor is used.

With the "4:3PS" setting, 16:9 pictures are displayed with the left and right sides cut off. Sources not compatible with panning and scanning are displayed with black bands at the top and bottom.

3 TV TYPE

Select video signal format for monitor.

[Selectable items]

NTSC : NTSC monitor is used.

PAL : PAL monitor is used.

MULTI : NTSC/PAL compatible monitor is used.

4 PROGRESSIVE MODE

Select optimum progressive mode for video material.

[Selectable items]

AUTO1 : Select mode suitable for film material playback.

AUTO2 : Select mode suitable for 30-frame film material playback.

VIDEO1 : Select mode suitable for video playback.

VIDEO2 : Select this for video sources with little motion.

VIDEO3 : Select this for motion-intensive video sources.

5 SQUEEZE MODE

Select display method of 4:3 material on 16:9 screen.

[Selectable items]

OFF : 4:3 material is stretched to fill 16:9 screen.

ON : 4:3 material is shown in center of 16:9 screen.

There is no effect with interlaced video outputs.

AUDIO SETUP

Make settings for audio playback.

● Menu screen ●

1 SPEAKER SETUP

Make detailed speaker settings.

CHANNEL LEVEL

Listening to the test tones at the listening position, adjust the level of the speakers for the different channels so that the volume level sounds the same from all speakers.

[Selectable items]

- TEST TONE** : Output test tone.
- FRONT LCH** : Output test tone from front left speaker.
- FRONT RCH** : Output test tone from front right speaker.
- SUBWOOFER** : Output test tone from subwoofer.

- The volume can be adjusted between the range of -12dB to +12dB.
- When "TEST TONE" was selected, the test tones are output in intervals of 4 seconds for the first two cycles, 2 seconds from the third cycle on, in the order shown below.

DISTANCE

Set distance from listening position to speakers.

[Selectable items]

- DISTANCE** : Select unit for distance.
- FRONT LCH** : Set distance from listening position to front left speaker.
- FRONT RCH** : Set distance from listening position to front right speaker.
- SUBWOOFER** : Set distance from listening position to subwoofer.
- DEFAULT** : Press the **ENTER** button to return to the default.

2 INPUT MODE

Make input mode and decode mode settings for this source.

[Selectable items]

- AUTO** : Detect type of digital input signal and decode and play automatically.
- DTS** : Decode and play only DTS input signals.
- PCM** : Decode and play only PCM input signals.
- ANALOG** : Play only signals from analog input.

RATINGS

Make viewer restriction related settings.

● Menu screen ●

1 RATING LEVEL

Select viewer restriction level.

[Selectable items]

- 0 (LOCK ALL)** : Prohibit playback of all DVDs.
- 1 ~ 7** : Prohibit playback of adult DVDs.
- 8 (NO LIMIT)** : Do not use viewer restrictions.

When "1 ~ 7" is selected, viewing cannot be restricted for adult DVDs on which no viewer restriction level has been recorded. However, when "0 (Lock All)" is selected, playback is prohibited for all discs, even discs on which no viewer restriction level has been recorded.

2 PASSWORD

Change password.

[Selectable items]

- OLD PASSWORD (0000 ~ 9999)** : Enter current password.
Default setting is "0000".
- NEW PASSWORD (0000 ~ 9999)** : Enter new password.
- CONFIRM PASSWORD** : Re-enter new password for confirmation.

OTHER SETUP

Make various other settings.

● Menu screen ●

1 CAPTIONS

Make settings for closed-caption info on DVD (separate decoder required).

[Selectable items]

- OFF** : Disable closed-caption display.
- ON** : Enable closed-caption display.

DVDs including closed caption signals are indicated by the , and marks. Subtitles are not displayed for DVDs not containing closed caption signals.

2 WALL PAPER

Change the OSD background.

[Selectable items]

- PICTURE** : Set the background to a picture.
- BLUE** : Set the background to blue.
- GRAY** : Set the background to gray.
- BLACK** : Set the background to black.

3 DISPLAY

Adjust display brightness of the receiver.

[Selectable items]

- BRIGHT** : Normal display brightness.
- MEDIUM** : Reduced display brightness.
- DIM** : Very low display brightness.
- OFF** : Display is off unless controls are operated.

4 SLIDE SHOW

Make slideshow settings.

[Selectable items]

- 5SEC** : Set the playback time per image. (5 ~ 15 sec)

5 AUTO POWER MODE

Control auto power-off 30 min. after DVD playback stop (power saver mode).

[Selectable items]

- OFF** : Disable power saver mode.
- ON** : Enable power saver mode.

This function only works when the input source is set to "DVD/CD".

6 SCREEN SAVER

Use the screen saver to prevent burn-in on the monitor screen.

[Selectable items]

- OFF** : Turn the screen saver function off.
- ON** : Activate the screen saver if there is no activity for about 5 minutes.

TIMER SETUP

Settings for Timer.

● Menu screen ●

1 ONCE TIMER

Settings for once-only timer.

[Selectable items]

DISABLE : Disable once-only timer.

ENABLE : Enable once-only timer.

Start Time

Set Timer Start Time. (12-hour display)

Example: PM 0:35

End Time

Set Timer End Time. (12-hour display)

Example: PM 1:00

Function

Select Timer Function.

2 EVERY TIMER

Settings for Everyday Timer.

[Selectable items]

DISABLE : Disable Everyday Timer.

ENABLE : Enable Everyday Timer.

Start Time

Set Timer Start Time. (12-hour display)

Example: PM 0:35

End Time

Set Timer End Time. (12-hour display)

Example: PM 1:00

Function

Select Timer Function.

- Be sure to set the current time if you want to use the timer playback function.
- When the function is set to "TUNER", also set the preset number.
- If the times set for the sleep timer, every timer and once timer overlap, the priority is as follows:
① sleep timer ② once timer ③ every timer

Setting the "ONCE TIMER" and "EVERY TIMER"

- ① Press the < > button to select "TIMER SETUP" icon, then press the **ENTER** button.
- ② Press the Δ ∇ button to select "ONCE TIMER" or "EVERY TIMER", then press the **ENTER** button.
- ③ Press the Δ ∇ button to select "ENABLE".
- ④ Press the Δ ∇ < > button to select start time, end time, and function, then press the **ENTER** button.
- ⑤ Press the Δ ∇ button to select "EXIT SETUP", then press the **ENTER** button.
The timer is turned on and the timer standby indicator "⌚" lights.
- ⑥ Press the **ON/STANDBY** button.
The power indicator turns orange.

Checking whether or not the timer is enabled

In the standby mode, press the **STATUS** button.
The status is displayed on the S-102's display.

(When the once timer is on and the everyday timer is off)

Canceling the timer

Select "DISABLE".

To turn the timer back on, select "ENABLE".

Changing the timer settings

Redo the timer setting operation from the beginning.
The previous settings are cleared and replaced with the new settings.

If there has been a power failure

The settings are cleared.

Reset the current time, then make the settings over from the beginning.

3 CLOCK SETUP

Set Current Time.

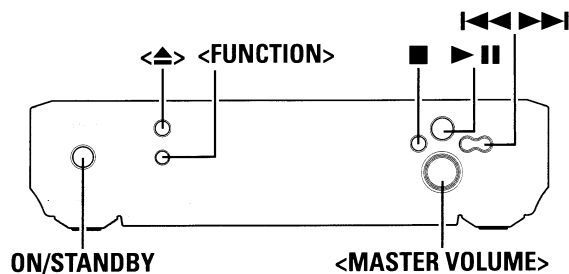

The clock is synchronized with the power supply frequency. It may be off by about 2 to 3 minutes per month.
In such cases, reset the time.

Setting the clock

- ① Press the < > button to select "TIMER SETUP" icon, then press the **ENTER** button.
- ② Press the **ENTER** button twice to change the current time.
- ③ Press the Δ ∇ < > button to set the current time, then press the **ENTER** button.
- ④ Press the **ENTER** button to enter the setting.

- To check the current time when the regular display is displayed, press the **STATUS** button once.
- The time can be displayed by pressing the **STATUS** button when the power is in the standby mode. (When this is done, the set is no longer in the low power consumption standby mode.)
When pressed twice while the time is displayed, the display turns off and the set is put back in the low power consumption standby mode.

Playback

Preparations

Turning the Power On

Press **ON/STANDBY**.

When no disc is loaded, "0h00m00s" is displayed.

When a disc is loaded, playback starts automatically. (DVD only)

Setting the power to the standby mode:

Press **ON/STANDBY**.

Turning the power off:

Unplug the power cord from the wall outlet.

Power indicator

StandbyRed

Power onBlue

When the timer is setOrange

NOTE

Be sure to stop playback before turning the power off.

Loading Discs

In the stop mode, press <▲> to open the disc tray.

※ "Loading discs" (page 4).

※ As long as the menu is displayed on the TV screen, the disc is still turning. Be sure to stop the disc first, then open the disc tray.

To close the disc tray

Press <▲> again.

NOTE

Do not place any foreign objects in the disc tray. Doing so could damage it.

Input source switching

Press <FUNCTION> or [DVD/CD], [FM/AM] or [AUX].

When <FUNCTION> is pressed

When [AUX] is pressed

※ "IN iPod" and "IN Front IN" are only displayed when the corresponding device is connected.

※ When using a Control Dock for iPod, "IN AUX2" is not displayed.

[Selectable items]

DVD/CD : You can view/listen to DVDs or CDs.

TUNER : You can listen to AM or FM broadcasts.

AUX1, 2 : You can listen to the sound or view the picture of an external device.

FRONT IN : You can listen to the sound of a portable player.

iPod : You can listen to the music of an iPod or view photo data.

Adjusting the Master Volume

Either turn <MASTER VOLUME> or press [VOLUME ▲▼].

The volume level is displayed.

※ The volume can be adjusted within the range of -60 to 0 to +18dB.

Depending on the input signal, surround mode, speaker settings and channel level settings, however, it may not be possible to adjust the volume up to +18dB.

Playing a DVD/Music CD Disc

Press ►.

The "►" indicator lights and playback begins.

- For details, refer to the respective disc's instructions. Some discs may be intentionally designed by their authors to work in ways other than described in this manual.
- Before playing DVD video discs, switch the connected TV's input.

Stopping playback

Press ■.

• Resume play memory function (DVD only)

With the S-102, when the ■ button is pressed, that position is stored in the memory. (At this time, "►" flashes on the display.) When the ► button is pressed after pressing the ■ button, playback resumes from the position at which it was stopped.

- ※ The resume play memory function is canceled if the disc tray is opened or the ■ button is pressed a second time.
- ※ The resume play memory function only works for discs for which the elapsed time is shown on the display during playback.

Stopping playback temporarily

Press <►II> or [II].

The "II" indicator lights.

- ※ To resume playback, press <►II> or [►].

Fast-forwarding and fast-reversing (searching)

During playback, press [<<<] or [>>>].

The fast-forward/fast-reverse speed increases each time the button is pressed.

- ※ To return to normal playback, press [►].

Moving to the beginning of tracks (skipping)

Press ►►I or I◀◀ during playback.

- The disc is skipped the number of chapters or tracks equal to the number of times the button is pressed.
- When pressed once in the return direction, playback returns to the beginning of the currently playing chapter or track.
- If pressed within 3 seconds after playback has started, the previous chapter is selected.

Finding tracks directly

1 During playback, use [CALL] to select the search mode.

For DVD video discs: Title ↔ Chapter

2 Press [NUMBER] (0 ~ 9, +10) to select the track.

Example : Track 4 : [4]

Example : Track 12 : [+10] [2]

Example : Track 20 : [+10] [+10] [0]

- ※ The search mode set by pressing [CALL] is stored in the memory until the power is turned off.

Discs are divided into a number of large sections (Title) and small sections (Chapter). Each of these sections is assigned a number.

For example:

DVD Video

Music CDs

Using the Top Menu/DVD Menu (DVD Video)

On DVDs containing multiple titles, it is possible to select and play the desired title from the top menu. Some DVDs include a special menu called the "DVD menu".

1 During playback, use [TOP MENU] or [MENU/GUIDE].

2 Use [△▽◀▶] to select the desired title, then press [ENTER] or ►.

Or, use [NUMBER] (0 ~ 9, +10) to select the desired title.

Playback starts.

TOP MENU	
Apple	Banana
Orange	Strawberry
Peach	Pineapple

Example : Top menu

DVD MENU
1. SUBTITLE
2. AUDIO
3. ANGLE

Example : DVD menu

About the button names in these explanations

- < > : Buttons on the main unit
[] : Buttons on the remote control unit

Button name only:

Buttons on the main unit and remote control unit

Switching the Audio Language, Subtitle Language and Angle (DVD Video)

For DVDs containing multiple audio languages, subtitle languages and angles, the language or angle can be switched during playback.

During playback, use [AUDIO/RDS], [SUBTITLE/PTY] or [ANGLE/CT].

The language or angle switches each time the button is pressed.

- With some discs it is not possible to change the audio language during playback. In such cases, select from the "SETUP".
- The language selected in the default settings (page 15) is set when the power is turned on and when the disc is replaced.

Using the Playback Control Function (DVD Video)

For DVD Video on which "Includes playback control" or the like is indicated on the disc or jacket, a menu screen is displayed.

Select the item you want to see, then start playback.

Select the item you want to see using [Δ▽◀▶], then press [ENTER] or ►.

Or, use [NUMBER] (0 ~ 9, +10) to select the desired title. Playback starts.

Example :

1. Opening
2. 1st movement
3. 2nd movement
4. 3rd movement
5. Ending

To return to the menu screen

During playback, press [RETURN].

Playing Frame by Frame (DVD Video)

In the still mode, press [II] on the remote control unit.

The picture moves forward one frame each time the button is pressed.

※ Press ► to return to normal playback.

Slow Playback (DVD Video)

In the still mode, press [◀◀] or [▶▶] on the remote control unit.

When pressed again, the slow play speed increases.

※ Press ► to return to normal playback.

Playing in the Zoom Mode (DVD Video)

1 During playback or still mode, press [ZOOM/RT].

→ OFF → ×1.5 → ×2 → ×4 →

2 Press [Δ▽◀▶].

Move the zoomed picture.

- The zoom function may not work properly at some scenes.
- Zooming is not possible with some discs.
- Zooming is not possible at the top menu or the menu screen.

Playing Repeatedly <Repeat playback> (DVD Video/Music CD)

During playback, press [REPEAT].
Playback in the respective repeat mode starts.

※ DVD video discs:

- Chapter repeated ("1" lights on the display)
- Title repeated ("1" lights on the display)
- Repeat playback cancelled (indicator turns off) →

※ Music CD discs:

- Track repeated (1) → Disc repeated (1) → Repeat playback cancelled →

Playing Tracks in the Desired Order <Program> (Music CD)

Up to 20 tracks can be programmed.

1 In the stop mode, press [PROGRAM].
The "PROG" indicator lights.

2 Use [NUMBER] (0 ~ 9, +10) to select the traks.

※ **Example :** To program tracks 3, 12, 7 to play in that order:
[3] [+10] [2] [7]

3 Press ►.

Checking the order of the programmed tracks

In the stop mode, press [CALL] repeatedly.

The track numbers are displayed in the programmed order each time the button is pressed.

Clearing programmed tracks one track at a time

In the stop mode, press [CLEAR].

The last track programmed is cleared each time the button is pressed.

Clearing the last programmed track

In the stop mode, press [PROGRAM].

The "PROG" indicator turns off.

Playing Random Order <Random playback> (Music CD)

1 In the stop mode, press [RANDOM].
The "RAND" indicator lights.

2 Press ►.
The tracks start playing in random order.

Canceling random playback

In the stop mode, press [RANDOM].
The "RAND" indicator turns off.

Playing Music Files

Before Playing MP3 or WMA Files

There are many music distribution sites on the Internet allowing you to download music files in MP3 or WMA (Windows Media® Audio) format. The music (files) downloaded from such sites can be stored on CD-R or CD-RW discs and played on the S-102.

"Windows Media" and "Windows" are registered trademarks or trademarks in the United States and other countries of Microsoft Corporation of the United States.

Creating MP3 and WMA Files Compatible with the S-102

- Writing software format: "ISO9660 level 1"
See the writing software's instructions.
- Compatible: ID3-Tag (Ver.1 or 2), meta-tag.
- Incompatible: Packet write, playlists.
- Displayable characters: "Hankaku" English letters and numbers, capital letters and _ (underscore).
No. characters displayable: 256

- When Playing MP3 or WMA Files, the digital output is converted to PCM. The signals are output with the same sampling frequency as when they were written.
- The positions of the folders or files may have been changed by the writing software when burning the MP3/WMA files onto the CD-R/CD-RW disc, so the files may not play in the expected order.
- Copyright-protected files cannot be played. Note that depending on the software used for burning and other conditions, some files may not play or display correctly.

Playable MP3/WMA file			
File format	Sampling frequency (kHz)	Bit rate (kbps)	Extension
MP3	32, 44.1, 48	32 ~ 320	.MP3
WMA	32, 44.1, 48	64 ~ 160	.WMA

Playing MP3 or WMA Files

1 Load a CD-R or CD-RW disc containing music files in the MP3 or WMA format into the disc tray (▶ page 4).

2 Select the folder you want to play using [△▽], then press [ENTER].

3 Select the file you want to play using [△▽], then press [ENTER] or ►.
Playback starts.

Switching the time display

During playback, press [DISPLAY].

※ SINGLE ELAPSED (Elapsed time of currently playing track)

→ SINGLE REMAIN (Remaining time of currently playing track) →

About the button names in these explanations

- < > : Buttons on the main unit
[] : Buttons on the remote control unit

Button name only:

Buttons on the main unit and remote control unit

Changing the play mode

FOLDER:

Playing all the files in the selected folder in order

FOLDER REPEAT:

Playing all the files in the selected folder repeatedly

RANDOM ON:

Playing all the files in the selected folder in random order

TRACK REPEAT:

Playing only the selected file repeatedly

Setting random playback using the remote control unit

In the stop mode, press **[RANDOM]** , then press **[▶]** or **[ENTER]**.
The “RAND” indicator lights and random playback begins.

※ The way in which the files are played in random order depends on the selected play mode.

Setting repeat playback using the remote control unit

During playback, press **[REPEAT]** , then press **[▶]** or **[ENTER]**.

※ TRACK REPEAT → FOLDER REPEAT → FOLDER (Repeat off)

Programmed playback is not possible on discs containing MP3/WMA files.

Playing Still Picture Files (JPEG format)

Still picture files in JPEG format recorded on CD-R/CD-RW discs, picture CDs and Fujicolor CDs can be played as slide shows on the S-102.

Creating JPEG Files Compatible on the S-102

- Writing software format: “ISO9660 level 1”
See the writing software’s instructions.
- Displayable characters: “Hankaku” English letters and numbers, capital letters and _ (underscore).
- JPEG files written on Macintosh computers cannot be played.
- The order in which the JPEG files are played may differ from the order you expect because the writing software may change the position of the folders or files when writing them on the CD-R/CD-RW disc.
- Depending on the writing conditions and software, it may not be possible to play or properly display some files.

Playable JPEG file	
Resolution (pixel)	Extension
0000×0000 ~ 2048×1536	.JPG/.JPE

Playing JPEG Files

Operate in the same way as described at “Playing MP3 or WMA Files” (🔍 page 23).

Changing the folder or file to be played

“Playing MP3 or WMA Files” (🔍 page 23)

Changing the play mode

“Playing MP3 or WMA Files” (🔍 page 24)

Changing the orientation of the picture

During playback or still mode, press [△ ▽ ◀ ▶].

△: Invert vertically

▽: Invert horizontally

◀: Rotate 90° counterclockwise

▶: Rotate 90° clockwise

Play the image in the zoom mode

During playback or still mode, press [ZOOM/RT].

◀◀: zoom out

▶▶: zoom in

※ Press [△ ▽ ◀ ▶] (to move the zoomed picture).

※ Continuous playback (SLIDE SHOW) is not possible in the zoom mode.

The way of switching to the next image during continuous JPEG image playback (SLIDE SHOW) can be selected

During playback, press [CALL].

SLIDE SHOW MODE: 1 to 11 → RANDOM → OFF

Playing Picture CD/Fujicolor CD

The S-102 can play Kodak Picture CDs and Fujifilm Fujicolor CDs so you can view the photographs stored on them on a TV screen.

※ Picture CDs are CDs containing photographs taken on conventional silver film cameras which have been converted into digital data. For details on Kodak Picture CDs and Fujicolor CDs, please contact a store offering film development services.

“KODAK” is a trademark of Eastman Kodak Company.

“FUJICOLOR CD” is a trademark of Fuji Photo Film Co, Ltd.

Load the picture CD or Fujicolor CD in the disc tray.

Playback of the still pictures starts automatically.

※ The pictures are played repeatedly until ■ is pressed.

Enjoying Surround Sound

Dolby Digital, DTS and other multi-channel sources, CD, video and other 2-channel sources can be played with similar atmospherics to the cinema.

[Connection procedure]

- ① Turn on the power of the S-102 and TV.
("Turning the Power On" (🔍 page 20), TV operating instructions)
- ② Switch the TV's input.
(TV operating instructions)
- ③ Switch the input source (🔍 page 20).
- ④ Set the input mode.
- ⑤ Select the surround mode.
- ⑥ Play the source.
- ⑦ Set the surround parameter (🔍 page 26).
- ⑧ Adjust the volume (🔍 page 20).

Set the Input Mode

When the input source is set to “DVD/CD” or “AUX,” the input mode can be switched (“Audio setup,” “Input mode” (🔍 page 17, 20).

- When playing CDs containing live recordings, etc., in the “auto” mode, the sound may be slightly broken when starting playback. If so, play in the “PCM” mode.
- When playing DTS sources in the “AUTO” mode, there may be noise when starting playback or searching. If so, play in the “DTS” mode.
- When playing DTS-compatible CDs in the “PCM” mode, noise is output. When playing DTS-compatible sources, be sure to do so in the “auto” or “DTS” mode.

About the button names in these explanations

- < > : Buttons on the main unit
- [] : Buttons on the remote control unit

Button name only:

Buttons on the main unit and remote control unit

Selecting Surround Mode

Press **[SURROUND]** to select the surround mode.

※ The "DOLBY VS REF. (WIDE)" and "STEREO" modes can also be selected by pressing **[DVS/STEREO]**.

[Selectable items]

DOLBY VS REF.

(Dolby Virtual Speaker reference mode):

This is the standard mode for experiencing 5.1-channel surround sound with only speakers for the two front channels.

DOLBY VS WIDE

(Dolby Virtual Speaker wide mode):

The Dolby Virtual Speaker mode's front channel sound field is expanded.

DOLBY H/P

(Dolby Headphone mode):

This is the surround mode for playing with headphones. A surround sound field is played with regular headphones.

DOLBY H BYPAS

(Dolby Headphone bypass mode):

The sound is played in the normal stereo mode rather than the surround mode when playing with headphones.

STEREO

Sound is played in the direct or stereo mode.

ROCK ARENA

This is an original DENON surround mode. It achieves the atmosphere of a live concert in an arena with reverberations circling in from the sides.

JAZZ CLUB

This is an original DENON surround mode. This achieves the atmosphere of a live concert hall with a low ceiling surrounded by hard walls, as if the artist were playing very close to you.

The "ROCK ARENA" and "JAZZ CLUB" modes may not achieve very strong effects, depending on the source being played. In this case, try other surround modes, without worrying too much about their names.

Set the Surround Parameter

Use **[SURROUND PARAMETER]** to display the various surround parameters, then select with **[<>]**.

After several seconds, the display returns to normal and the parameters you have set are entered automatically.

[Selectable items]

D.COMP (Dynamic range compression):

Optimized setting for late-night listening.

D.COMP only works when playing program sources record in Dolby Digital or DTS.

LFE

(Low Frequency Effect):

This sets the level of the subwoofer reproducing the low bass signals.

※ Recommended level

When playing Dolby Digital software: 0 dB

When playing DTS movie software: 0 dB

When playing DTS music software: -10 dB

CINEMA

When the Dolby Headphone mode is selected, analog, PCM or other 2-channel sources are decoded in the Dolby Pro Logic II Cinema mode and transformed into multiple channels for playback.

MUSIC

When the Dolby Headphone mode is selected, analog, PCM or other 2-channel sources are decoded in the Dolby Pro Logic II Music mode and transformed into multiple channels for playback.

Playing Dolby Digital/DTS Multi-Channel Sources (Digital input only)

- 1 Switch the input source (ⓘ page 20).
(DVD and AUX1 digital input)
- 2 Use [SURROUND] to select the "DOLBY VS REF" or "DOLBY VS WIDE".
The "□□ VS" indicator lights.
- 3 Play sources with the  or  mark sources.
The "□□D" or "dts" indicator lights, depending on the playback source's signal format.
- 4 Use [SURROUND PARAMETER] to display the various surround parameters, then select with [◀ ▶].

[Selectable items] **D.COMP** **LFE**

Playing Dolby Digital/PCM/Analog 2-Channel Sources

- 1 Switch the input source (ⓘ page 20).
- 2 Use [SURROUND] to select the "DOLBY VS REF" or "DOLBY VS WIDE".
The "□□ VS" indicator lights.
- 3 Play sources with the  mark.
The "□□D" indicator lights, depending on the playback source's signal format.
- 4 Use [SURROUND PARAMETER] to display the various surround parameters, then select with [◀ ▶].

[Selectable items] **D.COMP** **LFE**

To check the currently playing source and various settings

In the stop mode, press [STATUS].

※ The playback source and the various surround settings are shown on the display each time the button is pressed.

Listening in the Dolby Headphone Mode

- 1 Switch the input source (ⓘ page 20).
Plug the headphones (sold separately) into the <PHONES> jack.
The sound from the speakers is automatically cut off.
- 2 Press [SURROUND] to select the "DOLBY H/P".
The "□□H" indicator lights.
- 3 Play the source.
- 4 Use [SURROUND PARAMETER] to display the various surround parameters, then select with [◀ ▶].

[Selectable items]

D.COMP **LFE** **CINEMA** **MUSIC**

NOTE

Be careful not to set the volume too high when using headphones.

Listening to Radio Broadcasts

Tuning in Broadcast Stations

- 1 Press <FUNCTION> or [FM/AM] to select "TUNER".
- 2 Use <BAND> or [FM/AM] to select the reception band.

- 3 Use <+/->, [TUNING +/-] or [◀ ▶] to select the reception frequency.
When a station is received, the "TUNED" indication will light.

A humming sound may be heard when using a TV nearby while receiving AM programs. If this happens, move the system as far from the TV as possible.

Display of the FM broadcast reception status

- When the reception band mode is set to "FM AUTO" and a stereo broadcast is tuned in, the "ST" indicator lights.
- If the signal is weak and stable stereo reception is not possible, set the reception band mode to "FM MONO" and receive the program in monaural. The "MONO" indicator lights.

Main unit <+/-> button

There are two, switchable modes for <+/-> the tuning mode for setting the reception frequency (setting upon purchase), and the preset mode for selecting the preset broadcast station.

Switching the preset mode

Pressing <+> while pressing in <BAND>.

"PRESET" is flashes for approximately 5 seconds.

Switching the tuning mode

Pressing <-> while pressing in <BAND>.

"TUNING" is flashes for approximately 5 seconds.

Auto tuning

When [TUNING +/-] or [◀ ▶] is pressed and held in, the set automatically starts searching for a broadcast station.

※ Stations whose signal is weak cannot be tuned in.

About the button names in these explanations

- < > : Buttons on the main unit
[] : Buttons on the remote control unit

Button name only:

Buttons on the main unit and remote control unit

To stop the auto tuning

Press [TUNING +/-] or [◀ ▶].

Manual tuning

The reception frequency changes each time [TUNING +/-] or [◀ ▶] is pressed.

Naming the Currently Tuned in Broadcast Station and Presetting it

Up to 60 stations (total for AM and FM) can be preset.
Names of up to 8 characters can be input.

1 Tune in the broadcast station

2 Press [MEMO] twice.

The name input mode is set.

3 Use [Δ ▽] to select the character, then press [ENTER].

※ Characters that can be input.

A to Z, 0 to 9 + [CALL] for small letters
! " # \$ % & ' () * + , - . / : ; < = > ? @ [\] ^ _ { } (space)

- ※ Press [◀ ▶] to move the cursor.
Use this to correct input characters.
- ※ To cancel character input, press [MEMO].
Everything that has been input is canceled.

4 Once you are finished inputting, press [ENTER].

"P0 -" flashes on the preset number display.

5 Use [Δ ▽] to select the number, then press [ENTER].

Or use [NUMBER] (0 ~ 9, +10) to select the number.

The preset number, reception band and reception frequency are displayed, then the name of the broadcast station appears.

Changing the broadcast station name

- ① Call out the preset name you want to change, then press [MEMO] twice.
- ② Perform steps 3 and 4 at "Naming the currently tuned in broadcast station and presetting it"

To only preset

- ① Press [MEMO] while the broadcast station is tuned in.
- ② Select the number using [Δ ▽], then press [ENTER].
Or use [NUMBER] (0 ~ 9, +10) to select the number.

NOTE

If a station is preset at a number that has already been preset, the old settings are deleted and replaced with the new settings.

Automatically Presetting FM Stations (Auto preset)

Up to 60 stations can be preset.

1 Press <FUNCTION> or [FM/AM] to select "TUNER".

2 Press and hold in <II>.

"AUTO PRESET?" and "-NO/ +START" are displayed alternately.

※ Press <-> to cancel auto presetting.

3 Press <+>.

"SEARCH" flashes, then "COMPLETED" is displayed.

- Broadcast stations whose antenna signal is weak cannot be preset automatically. If you wish to preset such stations, tune them in manually, then perform the operation at "Naming the currently tuned in broadcast station and presetting it"
- Once auto presetting starts, it cannot be canceled (it takes about 60 seconds to be completed).

Listening to Preset Stations

Use <+/->, [CHANNEL] or [NUMBER] (0 ~ 9, +10) to select the preset number.

※ Operate <+/-> after switching to the preset mode (page 27).

iPod® Playback

With the S-102, you can listen to music or view photo data on an iPod. It is also possible to operate the iPod from the main unit or remote control unit.

 iPod is a trademark of Apple Inc., registered in the U.S. and other countries.

※ The iPod may only be used to copy or play contents that are not copyrighted or contents for which copying or playback is legally permitted for your private use as an individual. Be sure to comply with applicable copyright legislation.

NOTE

- DENON will accept no responsibility whatsoever for any loss of iPod data.
- Depending on the type of iPod and the software version, some functions may not operate.

Listening to Music

- 1 Press **<FUNCTION>** or **[iPod]** to select “iPod”.
- 2 Turn on the TV’s power. Set the TV’s input function to the S-102 input.
- 3 Press **▶**.
Playback starts.
※ Also read the iPod’s operating instructions.

Switching the S-102's display (FL)

 In the browse mode, when “Songs” is selected from the “TOP MENU” while a track is playing, the track stops.

Viewing Still Pictures (Only for iPods Equipped with the Photo Function)

- 1 Press **<FUNCTION>** or **[iPod]** to select “iPod”.
- 2 Turn on the TV’s power. Set the TV’s input function to the S-102 input.
- 3 Press **[RETURN]** to select the “Remote iPod”.
The iPod’s display menu is displayed.
- 4 Watching the iPod’s display, press **[Δ ∇]** to select the “Photos”.
- 5 Press **[ENTER]**.
The iPod’s photographs are displayed on the TV monitor.

 When an iPod is connected and a slide show is playing, the iPod is not charged. Charge it ahead of time.

Disconnecting the iPod

Set the S-102’s power to the standby mode using **ON/STANDBY**.

 It is also possible to use **<FUNCTION>**, **[DVD/CD]**, **[FM/AM]** or **[AUX]** to switch the input source to something other than “iPod” then disconnect the iPod.

Remote control and iPod button relations

Remote control unit buttons	iPod buttons	Operation on the S-102
		Play the track. ※ Play/Pause in remote mode
		Pause the track.
		Play the track from the beginning/ Play the next track.
		Fast-reverse the track/Fast-forward the track.
	Click Wheel	Select an item.
ENTER	Select	Enter the selection or plays the track.
RETURN	–	Switch between the browse mode and the remote mode.
REPEAT	–	Switch the repeat function.
RANDOM	–	Switch the shuffle function.
MENU/GUIDE	MENU	Display the menu or return to the previous menu. ※ In remote mode, the iPod backlight goes off when you press Play/Pause for an extended period.

Playing a Portable Audio

Your portable audio player can be connected to the S-102’s portable jack to play tracks on the portable audio player.

- 1 Press **<FUNCTION>** or **[AUX]** to select “Front in”.
- 2 Play the portable audio player.
The Portable Audio are output.
※ Also read the portable audio player’s operating instructions.

Connect the S-102 and portable audio player using a separately sold mini-stereo audio cable.

Advanced Operation

About the button names in these explanations

- < > : Buttons on the main unit
 [] : Buttons on the remote control unit

Button name only:

Buttons on the main unit and remote control unit

On-Screen Display

Using the Disc Information Screen (DVD Video/Music CD)

It is possible to display information on the disc (titles, chapters, tracks and times) and to specify the position to be played.

1 During playback, [DISPLAY].

2 Use [◀ ▶] to select the “”, then use [Δ ∇] to select the item you wish to change.

Specifying the title, chapter or track

After selecting “Title”, “Chapter” or “Track”, use [NUMBER] (0 ~ 9, +10) to select the number.

For DVD Video discs, also press [ENTER].

- Playback starts from the specified position.

To specify the elapsed time

① After selecting the elapsed time display, use [DISPLAY] to select the time display to be specified.

② Input the time using [NUMBER] (0 ~ 9, +10), then press [ENTER].

Example : To specify 1 hour, 32 minutes and 47 seconds

Press [1] [3] [2] [4] [7].

To specify 1 minutes and 26 seconds

Press [0] [0] [1] [2] [6].

- Playback starts from that tracks.

For some discs it may not be possible to specify the time.

Closing the disc information screen

Press [DISPLAY] again.

Using the Multi-Function Screen (DVD Video)

The audio language, subtitle language and angle can be switched.

1 During playback, [DISPLAY].

2 Use [◀ ▶] to select the “”, then use [Δ ∇] to select the item you wish to change.

3 Use [NUMBER] (0 ~ 9, +10) to select the number. Playback starts with the specified settings.

- For some discs, it may not be possible to switch the audio or subtitle language during playback. In this case select “Audio” or “Subtitle” (page 22).
- When the power is turned on or the disc is changed, the disc is played with the languages set at “Audio” or “Subtitle” (page 22).

Closing the multi-function screen

Press [DISPLAY] again.

Setting the Sleep Timer

Use this function to automatically switch the power to the standby mode after a specific amount of time (minutes).

1 Set the current time (see page 19).

2 During playback, use [SLEEP] to select the time. The "SLEEP" indicator flashes.

※ After about 4 seconds, the "SLEEP" indicator stops flashing, remaining lit, and the settings are automatically entered.

3 The power is set to the standby mode after the set amount of time.

Canceling the sleep timer

Press [SLEEP] until the "SLEEP" indicator turns off.

※ The sleep timer can also be canceled by setting the S-102's power to the standby mode using ON/STANDBY.

Checking the time remaining until the sleep timer starts

In the stop mode, press [STATUS].

The time is displayed.

※ The time can be displayed by pressing [STATUS] when the power is in the standby mode. (When this is done, the set is no longer in the low power consumption standby mode.)

When pressed twice while the time is displayed, the display turns off and the set is put back in the low power consumption standby mode.

If the sleep timer and everyday timer settings overlap, the sleep timer has priority.

Other Functions

Adjusting the Tone

1 Select the adjustment mode using [TONE].

2 With the name of the item to be adjusted selected, press [◀▶] to adjust the level.

[Selectable mode]

BASS :

Adjusts the bass sound (−10 dB to +10 dB).

TREBLE :

Adjusts the treble sound (−10 dB to +10 dB).

DEFEAT :

The tone adjustment circuitry can be bypassed to achieve high sound quality. "0dB"

If no operation is performed within 4 seconds, the display switches back to what was previously displayed.

Turning the Sound Off Temporarily (Muting)

Press [MUTE].

To cancel, either press [MUTE] again or adjust the volume using VOLUME.

Convenient Functions

Personal Memory Plus Function

This function sets the settings (input mode, surround mode, etc.) last selected for the individual input sources. When you switch to an input source, the settings are automatically set to the ones that were set the last time that input source was used.

The surround parameters, tone adjustment and the volumes of the different speakers are stored for the individual surround modes.

Last Function Memory

This stores the settings as they were directly before the standby mode was set.

When the power is turned back on, the settings are restored to as they were directly before the standby mode was set.

Backup Memory

The various settings are backed up for about 1 week, even if the power is turned off or the power cord is disconnected.

Auto Power On

When the power is in the standby mode, the power turns on simply by pressing [▶] or [◀].

Resetting the Microprocessor

Perform this procedure if the display is abnormal or if operations cannot be performed.

When the microprocessor is reset, all the settings are reset to their default values.

1 Set the standby mode using <ON/STANDBY>.

※ Set to the standby mode and wait 5 seconds.

2 Press <ON/STANDBY> while simultaneously pressing <FUNCTION> and [◀▶].

3 Release the three buttons when "INITIALIZE" is displayed.

If in step 3 the display does not flash at intervals of about 1 second, start over from step 1.

Remote Control Unit Operations

About the button names in these explanations

- < > : Buttons on the main unit
[] : Buttons on the remote control unit

Button name only:

Buttons on the main unit and remote control unit

Setting the preset memory function

DENON and other makes of components can be operated by setting the preset memory.

This remote control unit can be used to operate components of other manufacturers without using the learning function by registering the manufacturer of the component as shown in the list of preset codes (End of this manual).

1 Set **[SOURCE CONTROL]** to the component to be registered.

2 Press **[AUDIO/RDS]** and **[ZOOM/RT]** at the same time.

The indicator starts flashing.

3 Referring to the included list of preset codes (End of this manual), press **[NUMBER]** (0 ~ 9) to input the preset code (a 3-digit number) for the manufacturer of the component whose signals you want to store in the memory.

4 To store the codes of another component in the memory, repeat steps 2 to 3.

- The signals for the pressed buttons are emitted while setting the preset memory. To avoid accidental operation, cover the remote control unit's transmitting window while setting the preset memory.
- Depending on the model and year of manufacture, this function cannot be used for some models, even if they are of makes listed in the list of preset codes.
- Some manufacturers use more than one type of remote control code. Refer to the included list of preset codes to change the number and verify correct operation.
- Operation is not possible for some models.

Operating a component stored in the preset memory

1 Set **[SOURCE CONTROL]** to the component you want to operate.

2 Operate the component.

- ※ For details, refer to the component's operating instructions.
- ※ Some models cannot be operated with this remote control unit.

Setting the punch through function

"Punch Through" is a function allowing you to operate **[SOURCE CONTROL]** and **[TV INPUT]** on "TV", "SAT/CABLE" or "VCR" components when in the "DVD / CD / FM/AM / iPod" mode. By default, nothing is set.

1 Set **[SOURCE CONTROL]** to the component to be registered (DVD / CD / FM/AM / iPod).

2 Press **[CALL]** and **[REPEAT]** at the same time.

The indicator starts flashing.

3 Input the number of the component you want to set.

	Number
TV	1
SAT/CABLE	2
VCR	3
No setting	0

Special remarks	①	①	①	①	①	①

[Special Remarks]

- ① Only one component can be preset for each mode. If a new code is preset, the previous code is automatically cleared.
- ② The TV, SAT/CABLE or VCR buttons can be assigned to a DVD, CD, FM/AM or iPod (page 34).

Other Information

Surround

The S-102 is equipped with a digital signal processing circuit that lets you play program sources in the surround mode to achieve the same sense of presence as in a movie theater.

Dolby Surround

Dolby Digital

Dolby Digital is a multichannel digital signal format developed by Dolby Laboratories.

A total of 5.1-channels are played: 3 front channels ("FL", "FR" and "C"), 2 surround channels ("SL" and "SR") and the "LFE" channel for low frequencies.

Because of this, there is no crosstalk between channels and a realistic sound field with a "three-dimensional" feeling (sense of distance, movement and positioning) is achieved.

A real, overpowering sense of presence is achieved when playing movie sources in AV rooms as well.

Dolby Pro Logic II

Dolby Pro Logic II is a matrix decoding technology developed by Dolby Laboratories.

Regular music such as that on CDs is encoded into 5-channels to achieve an excellent surround effect.

The surround channel signals are converted into stereo and full band signals (with a frequency response of 20 Hz to 20 kHz or greater) to create a "three-dimensional" sound image offering a rich sense of presence for all stereo sources.

※ Sources recorded in Dolby Surround

Sources recorded in Dolby Surround are indicated with the following logo marks.

Dolby Surround support mark : 

Manufactured under license from Dolby Laboratories.
"Dolby", "Pro Logic" and the double-D symbol are trademarks of Dolby Laboratories.

DTS Surround

DTS Digital Surround

DTS Digital Surround is the standard digital surround format of DTS, Inc., compatible with a sampling frequency of 44.1 or 48 kHz and up to 5.1-channels of digital discrete surround sound.

Manufactured under license under U.S. Patent #'s: 5,451,942; 5,956,674; 5,974,380; 5,978,762; 6,487,535 & other U.S. and worldwide patents issued & pending. DTS is a registered trademark and the DTS logos, Symbol and DTS Virtual are trademarks of DTS, Inc. © 1996-2007 DTS, Inc. All Rights Reserved.

Dolby Headphone

Dolby Headphone is a 3D sound technology developed jointly by Dolby Laboratories and Lake Technology of Australia achieving surround sound with regular headphones.

Dolby Headphone simulates speaker playback in a room and positions the sound sources to the front or the sides, outside of the head, achieving a powerful sound similar to that of a movie theater or home theater.

Dolby Virtual Speaker

Dolby Virtual Speaker technology uses proprietary technology of Dolby Laboratories to create a virtual surround sound field using only two speakers for the front channels, allowing the user to experience sound as if surround speakers were actually being used.

Features of Dolby Virtual Speaker sound

Accurate surround sound field positioning

The virtual surround speakers are positioned at 105° to the left and 105° to the right.

Multi-channel programs played according to the producer's intentions

Sound set at the rear left is heard from the rear left.

Stereo programs played in surround

The Dolby Pro Logic II circuit is used together with the Dolby Virtual Speaker circuitry to create a rich virtual surround sound field with stereo programs as well.

Selecting the listening mode

Two listening modes are provided: Reference and Wide.

 : 2 front channels

 : Virtual sound field created with the Dolby Virtual Speaker mode

Progressive Scan Circuit "DCDi™"

"DCDi™" is trademark of Faroodja, a division of Genesis Microchip Inc.

The S-102 is equipped with a high precision Progressive Scan circuit "DCDi™" allowing it to reproduce movies and other images on DVDs with a quality near that of the original.

AL24 Processing (Stereo mode only)

AL24 Processing has inherited the technology of the original ALPHA Processing that was used in DENON's highly-successful reference-class audio components.

AL24 Processing further reduces quantization distortion and represents the ultimate analog waveform reproduction technology designed to support the higher numbers of bits and higher sampling.

AL24 Processing senses the nature of the digital data being input and interpolates the data so that it faithfully replicates the original analog waveform. AL24 processing operates when CD, MP3 or WMA data is inputted.

HDCD® (High Definition Compatible Digital®) (Stereo mode only)

HDCD® is an encoding/decoding technology that greatly reduces the distortion that occurs upon digital recording while maintaining compatibility with the conventional CD format, thus expanding the dynamic range and achieving a high resolution.

Conventional CDs and HDCD compatible CDs are identified automatically to select the optimum digital processing.

HDCD®, HDCD®, High Definition Compatible Digital® and Microsoft® are either registered trademarks or trademarks of Microsoft Corporation, Inc. in the United States and/or other countries. HDCD system manufactured under license from Microsoft Corporation, Inc. This product is covered by one or more of the following: In the USA: 5,479,168, 5,638,074, 5,640,161, 5,808,574, 5,838,274, 5,854,600, 5,864,311, 5,872,531, and in Australia: 669114. Other patents pending.

Audyssey Dynamic EQ.

Audyssey Dynamic EQ. is a technology that automatically corrects the tonal balance of an audio system when the volume is changed. It is based on psychoacoustic research that better matches to human perception than other loudness compensation that was used before. The tonal balance is adjusted continuously with variation in both program material and volume setting.

Audyssey BassXT

Audyssey BassXT is a solution to extend bass performance to lower frequencies without increasing cabinet size, driver size or weight. BassXT actively monitors the incoming low frequency signal and drives subwoofers to their maximum capability at all volumes, thereby producing deeper bass at all volume levels. This allows the subwoofer to play low bass content when it can and protects it only for the few times when it can't. It is not like simple bass boost or tone control as the system is fully customized for each speaker design by DSP processing and works in real time.

Manufactured under license from Audyssey Laboratories, Inc. U.S. and foreign patents pending.
Audyssey BassXT™ and Audyssey Dynamic EQ™ are trademarks of Audyssey Laboratories, Inc.

Troubleshooting

If a problem should arise, first check the following:

1. Are the connections correct?
2. Is the set being operated as described in the owner's manual?
3. Are the other components operating properly?

If this unit does not operate properly, check the items listed in the table below. Should the problem persist, there may be a malfunction.

In this case, disconnect the power immediately and contact your store of purchase.

[General]

Symptom	Cause	Countermeasure	Page
Display not lit and sound not produced when power switch set to on.	• Power cord not plugged in securely.	• Check the insertion of the power cord plug.	10
Display lit but sound not produced.	• Speaker cables not securely connected.	• Connect securely.	10
	• Device you want to play and set input source do not match.	• Select an appropriate input source.	20
	• Volume control set to minimum.	• Turn volume up to suitable level.	20
	• MUTING is on.	• Switch off MUTING.	31
	• Digital signals not input Digital input selected.	• Input digital signals or select input terminal to which digital signals are being input.	12
Monitor does not display an image.	• Connections between the video output terminal of this unit and the input connector of the monitor are incomplete.	• Check whether the connections are correct.	11
	• The input setting of the monitor TV is different.	• Set the input switching of the TV to the terminal to which the video input is connected.	12
When the subwoofer indicator has lit.	• The subwoofer and main unit are not properly connected with the system cable.	• Check whether or not the cable is properly connected. If the indicator lights even though the cable is properly connected, there may be a malfunction.	10

Symptom	Cause	Countermeasure	Page
Power turns off suddenly and power indicator flashes red.	• Protection circuit activated due to rise of internal temperature.	• Turn off the power, wait for the set to fully cool down, then turn the power back on.	10
		• Place the set in a well-ventilated place.	10
	• Core wires of two speakers are touching each other or a core wire is sticking out of the terminal and touching the set's rear panel, activating the protection circuit.	• First unplug the power cord, then twist the core wires tightly or terminate the speaker cables, then reconnect.	9, 10
	• Set is damaged.	• Turn off the power and contact a DENON service center.	—

[Remote Control Unit]

Symptom	Cause	Countermeasure	Page
Set does not work properly when remote control unit operated.	• Batteries are worn.	• Replace with new batteries.	5
	• You are operating outside of the specified range.	• Operate within the specified range.	5
	• Obstacle between main unit and remote control unit.	• Remove the obstacle.	5
	• The batteries are not inserted in the proper direction, as indicated by the polarity marks in the battery compartment.	• Insert the batteries in the proper direction, following the polarity marks in the battery compartment.	5
	• The set's remote control sensor is exposed to strong light (direct sunlight, inverter type fluorescent bulb light, etc.).	• Move the set to a place in which the remote control sensor will not be exposed to strong light.	5
	• SOURCE CONTROL switch position is different.	• Set the SOURCE CONTROL switch for the device you wish to use.	8

[DVD]

Symptom	Countermeasure	Page
Playback does not start when ► button is pressed. Playback stops immediately.	<ul style="list-style-type: none"> Is there condensation on the disc or player ? (Let stand for 1 or 2 hours.) Discs other than DVDs and music CDs cannot be played. Disc is dirty. Wipe off the dirt. 	<p>–</p> <p>4</p> <p>5</p>
Picture is disturbed during the search operation.	<ul style="list-style-type: none"> Some disturbance is normal. 	–
Buttons do not operate.	<ul style="list-style-type: none"> Some operations are disabled for some discs. 	–
No subtitles are displayed.	<ul style="list-style-type: none"> Subtitles are not displayed for DVDs not containing subtitles. Subtitles are turned off. Turn the subtitles setting on. 	<p>–</p> <p>15</p>
Audio (or subtitle) language does not switch.	<ul style="list-style-type: none"> The audio (or subtitle) language does not switch for discs which do not include multiple audio (or subtitle) languages. For some discs the audio (or subtitle) language cannot be switched when the operation to switch it is performed, but can be switched on the menu screens. 	<p>–</p> <p>–</p>
Angle does not switch.	<ul style="list-style-type: none"> The angle cannot be switched for DVDs which do not contain multiple angles. In some cases multiple angles are only recorded for specific scenes. 	–
Playback does not start when the title is selected.	<ul style="list-style-type: none"> Check the "RATINGS" setting. 	18
The password for rating level has been forgotten. Reset all the DVD setting to Factory Preset.	<ul style="list-style-type: none"> Initialize using the procedure described at "Resetting the Microprocessor". 	31
The disc is not played with the audio or subtitle language set as the default setting.	<ul style="list-style-type: none"> The disc does not play with the selected audio or subtitle language if that audio or subtitle language is not included on that DVD. 	–
Picture is not displayed in 4:3 (or 16:9).	<ul style="list-style-type: none"> At the menu's "TV ASPECT" setting, select "4:3LB/4:3PS/WIDE (16:9)" and set according to the TV you are using. 	16

Symptom	Countermeasure	Page
Menu screen messages for the desired language do not display.	<ul style="list-style-type: none"> Check the default setting for the disc language's menu language. 	15

[Audio]

Symptom	Cause	Countermeasure	Page
No sound is output from the monitor connected with HDMI connections.	<ul style="list-style-type: none"> HDMI audio signal output destination setting is wrong. 	<ul style="list-style-type: none"> Set to "VIDEO SETUP" – "HDMI SETUP" – "HDMI AUDIO OUT" – "ON". 	16

[Tuner]

Symptom	Cause	Countermeasure	Page
Continuous noise is heard when receiving FM programs	<ul style="list-style-type: none"> Antenna cable is not properly connected. 	<ul style="list-style-type: none"> Connect the antenna cable properly. Connect an outdoor antenna. 	13
Hissing or continuous noise is heard when receiving AM programs	<ul style="list-style-type: none"> This may be noise from a TV or interference from a radio station. 	<ul style="list-style-type: none"> Turn off the TV. Change the position and direction of the AM loop antenna. 	3

[iPod]

Symptom	Cause	Countermeasure	Page
iPod cannot be played.	<ul style="list-style-type: none"> The input source assigned to "iPod Assign" is not selected. Cable is not properly connected. Control Dock for iPod's AC adapter is not connected to power outlet. 	<ul style="list-style-type: none"> Switch to the input source assigned at "iPod". Reconnect. Plug the Control Dock for iPod's AC adapter into a power outlet. 	29 12 —
iPod slide show is not output to the TV.	—	<ul style="list-style-type: none"> Set the iPod slide show correctly. See your iPod user's manual for more details on how to operate. 	—

[Video]

Symptom	Cause	Countermeasure	Page
The on-screen display does not appear.	<ul style="list-style-type: none"> The format of the TV (NTSC or PAL) do not match. 	<ul style="list-style-type: none"> Match the format of the TV. 	16
No picture appears.	<ul style="list-style-type: none"> The connections between the S-102 and monitor are faulty. The monitor's input setting is wrong. 	<ul style="list-style-type: none"> Check the connections. Set properly. 	11 —
No picture appears with HDMI connections.	<ul style="list-style-type: none"> The connections to the HDMI connectors are faulty. The monitor is not compatible with copyright protection (HDCP). 	<ul style="list-style-type: none"> Check the connections. Connect a monitor that is compatible with copyright protection (HDCP). 	11 11
DVDs cannot be copied on a VCR.	—	<ul style="list-style-type: none"> This is not a malfunction. Most movie software includes copy prevention signals and cannot be copied. 	—

Specifications

Audio section

• Analog

Input sensitivity / Input impedance: 140 mV/47 kΩ/kohms

Tuner section

Reception frequency range: FM: 87.50 MHz ~ 107.90 MHz AM: 530 kHz to 1710 kHz
Receiving sensitivity: FM: 1.5 μV/75 Ω/ohms AM: 20 μV
FM stereo separation: 35 dB (1 kHz)

Video section

• Standard video connectors

Input / output level and impedance: 1 Vp-p, 75 Ω/ohms

• S-Video connectors

Input / output level and impedance: Y (brightness) signal — 1 Vp-p, 75 Ω/ohms
 C (color) signal — 0.286 Vp-p, 75 Ω/ohms

• Color component video connector

Input / output level and impedance: Y (brightness) signal — 1 Vp-p, 75 Ω/ohms
 P_B / C_B signal — 0.7 Vp-p, 75 Ω/ohms
 P_R / C_R signal — 0.7 Vp-p, 75 Ω/ohms
 Pin connector : 1 set/S-Video connector : 1 set/
 Component video connector : 1 set

Couverture

Cette garantie couvre tous les défauts de matériel ou de fabrication du produit, à l’exception de ceux indiqués ci-après qui conformément selon les termes durant la période de la garantie. Ne sont pas couverts par la garantie: (1) Tout produit qui n’est pas distribué au Canada par D&M CANADA INC. (2) Tout produit qui n’a pas été acheté au Canada auprès d’un revendeur officiel DENON (Note: On peut identifier les revendeurs officiels DENON par leur auto-collant “REVENDEUR OFFICIEL DENON” affiché dans leur magasin. Si vous doutez qu’un revendeur soit officiellement reconnu, contactez D&M CANADA INC. à l’adresse ci-dessous.) (3) Tout produit dont le numéro de série a été effacé, modifié ou enlevé. (4) Dommages dus à la détérioration ou à un fonctionnement défectueux à la suite de: a) accident, acte de la nature, abus, utilisation impropre, négligence, réparation au moyen d’un produit non autorisé, débalé, modification, emploi contraire aux instructions fournies avec le produit, b) réparation ou tentative de réparation par quelqu’un non reconnu par DENON. c) tout envoi du produit (la réclamation doit être présentée au transporteur). (5) Articles sujets à détérioration par l’usage (têtes de magnétophone, cellules phono, pointes de lecture phono, piles, etc.). (6) Vérification périodique qui ne révèle aucun défaut. (7) Utilisation du produit hors du Canada. (8) Bandes magnétiques, disques CD ou DVD endommagés. (9) Utilisation commerciale, industrielle ou professionnelle. (10) Toutes charges d’installation ou de déplacement résultant d’un défaut du produit.

Notre paiement

Si votre produit DENON est reconnu défectueux par DENON durant la période d’application de la garantie après la date d’achat du consommateur, DENON réparera ou, à son choix, remplacera avec un modèle neuf, usagé ou équivalent ce produit défectueux sans frais de pièces ni de main d’œuvre.

Exécution de la garantie

Si votre produit nécessite service, il peut être envoyé à tout atelier de service officiel DENON ou chez D&M CANADA INC. (Si vous doutez que l’atelier de service soit officiellement reconnu, contactez D&M CANADA INC. à l’adresse ci-dessous). Dans tous les autres cas, les procédures suivantes s’appliquent si votre article doit être transporté pour un service sous garantie.

- a. Vous êtes responsable du transport de votre article ou vous devez vous arranger vous-même pour son transport.
- b. Si votre article doit être envoyé, vous devez payer les frais d’envoi initiaux, mais nous payerons les frais de retour si la garantie couvre les réparations.
- c. **LORSQUE VOUS RENVOYEZ VOTRE ARTICLE POUR UN SERVICE SOUS GARANTIE, VOUS DEVEZ JOINDRE UNE COPIE DE LA FACTURE D’ACHAT D’ORIGINE.**
- d. Vous devez inclure également vos nom, adresse, numéro de téléphone de jour, numéros de modèle et de série du produit et une description du problème. Dans le cas d’un lecteur CD ou DVD, joindre un disque que l’appareil n’a pu lire pour test. Il vous sera retourné avec l’article.

CETTE GARANTIE EST VALABLE SEULMENT AU CANADA.

Si votre produit ne requiert aucun service mais que vous avez des questions quant à son fonctionnement, contactez notre département technique dont l’adresse figure ci-dessous.

CETTE GARANTIE EST EXPRESSÉMENT FAITE EN LIEU ET PLACE DE TOUTES LES AUTRES GARANTIES EXPRIMÉES OU SOUS-ENTENDUES* Y COMPRIS, SANS SE LIMITER À CELLES-CI, LES GARANTIES MARCHANDES ET SPÉCIFIQUES POUR UN USAGE PARTICULIER.

NOTRE RESPONSABILITÉ SE LIMITE À LA RÉPARATION OU AU REMPLACEMENT, À NOTRE CHOIX, DE TOUT PRODUIT DÉFECTUEUX ET N’INCLUT EN AUCUN CAS DES DOMMAGES FORTUITS, COMMERCIAUX INDIRECTS NI MATÉRIELS D’AUCUNE SORTE. NOUS NOUS SOMMES PAS RESPONSABLES POUR LA PERTE DE LES PRODUITS ET/OU LES MARCHANDISES ENDOMMAGEES PENDANT LE TRNSPORT DES BIENS.

CERTAINES PROVINCES NE PERMETTENT PAS DE LIMITES QUANT À LA DURÉE D’UNE GARANTIE SOUS-ENTENDUE ET/OU NE PERMETTENT PAS L’EXCLUSION DE DOMMAGES FORTUITS. LES LIMITATIONS ET EXCLUSIONS MENTIONNÉES PLUS HAUT PEUVENT NE PAS S’APPLIQUER À VOTRE CAS.

Cette garantie vous donne des droits légaux spécifiques, mais il se pourrait que vous ayez d’autres droits qui varient d’une province à l’autre. La garantie ne peut être modifiée que par un document signé par un gestionnaire autorisé de D&M Canada.

What is Covered

Except as specified below, this Warranty covers all defects in material and workmanship in this product occurring during the above warranty periods. The following are not covered by the Warranty: (1) Any product which is not distributed in the U.S.A. by DENON ELECTRONICS (USA). LLC. (2) Any product which is not purchased in the U.S.A. from an authorized DENON dealer, unless the product is purchased through the U.S.A. Military Exchange Service where the Warranty will be One (1) year for all products listed above except in the case of Cartridges, Accessories, Remote Controller and Headphone which will remain at 90 days. (Note: AUTHORIZED DENON DEALERS can be identified by DENON AUTHORIZED DEALER sticker displayed in the stores. If you are uncertain as to whether a dealer is a DENON AUTHORIZED DEALER, please contact DENON as listed below). (3) Any product on which the serial number has been defaced, modified or removed. (4) Damaged deterioration or malfunction resulting from: a) Accident, act of nature, abuse, misuse, neglect, unauthorized product repair, opening of or modification or failure to follow instructions supplied with the product. b) Repair or attempted repair by anyone not authorized by DENON. c) Any shipment of the product (claim must be presented to carrier). (5) Items subject to wear from normal usage (tape heads, cartridges, stylus, battery, etc.). (6) Periodic check-ups which do not disclose any defect. (7) Use of the product outside the U.S.A. (8) Damaged magnetic tape or CD/DVD discs. (9) Use in industrial, commercial, and/or professional applications. (10) Any installation or removal charges resulting from product failure.

What We Will Pay For

If during the applicable warranty period from the date of original consumer purchase your DENON product is found to be defective by DENON, DENON will repair, or at its option, replace with new, used or equivalent model, such defective product without charge for parts or labor.

How to Obtain Warranty Performance

If your unit ever needs service, it may be taken or shipped to any authorized DENON service station or DENON ELECTRONICS (if you are uncertain as to whether a service station is DENON authorized, please contact DENON as listed below.) In all other cases, the following procedures apply whenever your unit must be transported for warranty service:

- a. You are responsible for transporting your unit or arranging for its transportation.
- b. If shipment of your unit is required:
You must pay the initial shipping charges, but we will pay the return shipping charges if the repairs are covered by the Warranty.
WHEN RETURNING YOUR UNIT FOR WARRANTY SERVICE, A COPY OF THE ORIGINAL SALES SLIP MUST BE ATTACHED.
- c. WHEN RETURNING YOUR UNIT FOR WARRANTY SERVICE, A COPY OF THE ORIGINAL SALES SLIP MUST BE ATTACHED.
- d. You should include the following: your name, address, daytime telephone number, model and serial number of the product and a description of the problem. In the case of a CD or DVD Player, please enclose ONE (1) disc that the unit has failed with for test reasons. It will be returned with the unit.

THIS WARRANTY IS VALID IN THE U.S.A. ONLY.

If your product does not require service, but you have questions regarding its operation, please contact our Technical Services Department as listed below.

THIS WARRANTY IS EXPRESSLY MADE IN LIEU OF ALL OTHER WARRANTIES, EXPRESSED OR IMPLIED, INCLUDING WITHOUT LIMITATION, WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

OUR LIABILITY IS LIMITED TO THE REPAIR OR REPLACEMENT, AT OUR OPTION, OF ANY DEFECTIVE PRODUCT AND SHALL IN NO EVENT INCLUDE INCIDENTAL OR CONSEQUENTIAL COMMERCIAL OR PROPERTY DAMAGES OF ANY KIND. WE ARE NOT RESPONSIBLE FOR PRODUCTS LOST, STOLEN AND/OR DAMAGED DURING SHIPPING.

SOME STATES DO NOT ALLOW LIMITATIONS ON HOW LONG AN IMPLIED WARRANTY LASTS AND/OR DO NOT ALLOW THE EXCLUSION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATIONS AND EXCLUSIONS MAY NOT APPLY TO YOU.

This warranty gives you specific legal rights, but you may also have other rights which vary from state to state. This Warranty may not be altered other than in a writing signed by an officer of Denon Electronics USA, LLC.
